

How to fit Robeez Tredz™

Robeez Tredz flex sole shoes are designed to grow with little feet. Special features have been added to ensure the shoe fits more than one size, making Robeez Tredz unique from other toddler shoes:

Ankle elastic keeps the foot at the back of the shoe, providing support even when there is extra room to grow.

Adjustable fasteners allow Tredz to fit snug around the ankle and top of foot.

Soft flexible upper and sole moulds to the foot, ensuring Tredz stay with the foot as it moves.

SIZING CHART

Little feet grow fast so it is important to have sufficient **growth room**. The growth room in Robeez Tredz ranges from approximately 11 mm / 0.45" to 19mm / 0.75", depending on your child's shoe size. Experts recommend a thumb's width of growth room.

Robeez Tredz special features ensure that no matter where your child is in this range, they will be a good fit.

Robeez Tredz are sized to fit a medium width foot.

STEP 1: Measure your child's shoe size

Using the chart beside, stand your child with one heel lining up to the dotted bee trail. Gently press down the top of your child's foot and toes to make sure they are flat and toes are not curled.

The line that touches your child's longest toe indicates the correct size. Be sure to measure both feet as they may be different. Choose the size that corresponds with the longest foot.

STEP 2: Match your child's shoe size to the corresponding Robeez Tredz size:

SIZE	Tredz Size (months)	Growth Room (mm/in)
4	12 - 16 m	19 mm / 0.75"
4.5	12 - 16 m	15 mm / 0.60"
5	12 - 16 m	11 mm / 0.45"
5.5	16 - 20 m	19 mm / 0.75"
6	16 - 20 m	15 mm / 0.60"
6.5	16 - 20 m	11 mm / 0.45"
7	20 - 24 m	19 mm / 0.75"
7.5	20 - 24 m	15 mm / 0.60"
8	20 - 24 m	11 mm / 0.45"
